RE: Request for Extension of Tender Closing Date: ATNS/RFP04/03/2025/26/ATIS

Good day,

We refer to the tender for the appointment of a service provider for the supply, delivery, installation and commissioning of an ATIS system at the various ATNS sites. The current closing date is 19 May 2026 at 11h00 CAT.

We respectfully request that ATNS consider extending the tender closing date to allow bidders sufficient time to submit a comprehensive, compliant and technically sound proposal. The tender requires a detailed response across the administrative, financial, technical, project management and logistics support volumes. The bid documents also require alignment across all parcels and volumes, and non-alignment may affect responsiveness. In addition, the tender preparation period has been impacted by the recent Easter break and South African public holidays. These holidays have reduced the effective working days available for coordination with OEMs, subcontractors, suppliers and internal technical teams. An extension would assist bidders in ensuring that the proposal submitted is complete, properly coordinated and fully responsive to ATNS's requirements.

We therefore kindly request that ATNS consider extending the closing date by at least six weeks, or for such further period as ATNS may deem appropriate.

We trust that this request will be considered favourably.

Kind regards

Larrin Hughes
