URGENT MEDIA UPDATE: Flight disruptions expected at George Airport due to severe inclement weather conditions

Air Traffic and Navigation Services (ATNS) SOC Ltd would like to notify stakeholders including passengers that flight disruptions are expected at George Airport today due to severe inclement weather conditions.

The weather conditions around the airport are not conducive to and safe for aircraft to operate, with wind direction favouring the use of Runway 11, whose instrument landing system (ILS) flight procedure is still under maintenance.

ATNS will continue to monitor the situation and advise airlines and aviation stakeholders accordingly.
