ATNS Company Limited,
 Eastgate Office Park, Block C,
 South Boulevard Road,
 Bruma,
 2298
 E-Mail: Mr. Nathan Leeuw nathanl@atns.co.za

(ATNS/TPQ/RFP002/FY24.25/AIM SYSTEM REPLACEMENT)

(APPOINTMENT OF A SERVICE PROVIDER FOR SUPPLY, DELIVERY, INSTALLATION, TESTING AND COMMISSIONING OF AN AERONAUTICAL INFORMATION MANAGEMENT (AIM) SYSTEM)

No.	Paragraph No. in RFT or Bid Document	Questions
1	Volume 2	The requirements in Volume 2 are not marked as (M), (D) or (I). Please advise. The requirements will be allocated points at section level as per the breakdown provided in the evaluation weights document
2	Volume 2, 6.19 + 6.19.1: System Support Suite (SSS); The system and equipment that will be used for disaster recovery, test and evaluation (software and external sources integration evaluation) shall be installed in the System Support Suites (SSS) at FAOR. This system shall interface with the main system.	What is the specification of this system? (redundant / non redundant? 1:1 copy of the operational system (HW and SW)?) The SSS system is a non-redundant system which will serve as backup for the main operational system. 2) It is understood that this system is to be used as test and evaluation system as well as for disaster recovery. Due to this dual use, it is understood that switching to operational state is a manual process with some preparational steps that need to be executed/controlled. Please confirm. Confirmed
3	Volume 2, 6.18.11: The Tenderer shall include as part of their offer a training platform or environment to achieve the above training objectives without interfering with the operational system.	1) Are you looking for a temporary or permanent training platform? In case it is temporary it will be created using the spare parts stock. The SSS backup system to be used for training purposes.

		<p>2) In case it is permanent please indicate where the training platform shall be installed.</p> <p>The SSS backup system to be used for training purposes.</p>
4	Volume 2, 6.22.9: Working Position PC	<p>The specification asks for 2x 500gb HDD for the terminal PCs. Shall the disks be operated in a RAID configuration? If not, we suggest using one 1 TB disk.</p> <p>The disks shall be operated in a RAID configuration</p>
